RE: Strategize and Mobilize to Ensure VP Harris Disregards Parliamentarian for an Update to the Registry in BBB

Dear Chairman Ruiz, Congressional Hispanic Caucus Leadership, Senator Feinstein, and Senator Padilla:

As Latino leaders from across the state of California serving in elected office and community based roles, we respectfully urge you, members of the Congressional Hispanic Caucus and Senators representing the state of California, to ensure that permanent residency- a path to citizenship- is reinserted into the Build Back Better Act (BBB) through a registry update. We are at a crossroads now that the House has sent BBB to the Senate with the Senate to resume consideration after the holiday season. We are cognizant of the ongoing discussions between the White House and the Senate aimed at securing 50 Senate votes for any final package. Irrespective of the latest news cycle, our position is clear and steadfast: the inclusion of permanent protections for immigrants across the nation is a moral, economic and political imperative. This has never
been more important as we face the challenges of true recovery from the ravages of the COVID 19 pandemic.

Through our work and advocacy we have fought tirelessly to introduce and enact laws for immigrants at state and local levels. This work is driven by our deep connections to our constituencies and neighbors and for some of us, through our own lived experiences. However, we are limited to enact change within our jurisdictions to secure the rights and protect the livelihoods of impacted communities.

Immigrants throughout the country have made immeasurable sacrifices through and before this Pandemic, and many of them have died in this country undocumented awaiting the opportunity to legalize. Through the COVID-19 pandemic, 74% of undocumented workers (compared to 65% of native born workers) have been employed in essential critical infrastructure categories from farming and food, to construction and healthcare.\(^1\) During a time of crisis, undocumented workers have put their lives on the line to support their families and our nation unequivocally facing higher risk of COVID infection and death, all the while facing limited access to healthcare and benefits.\(^2\) It is time for Congress to honor their sacrifices, contributions and dreams and deliver green cards. We demand that the registry update is reinserted into the bill for one simple reason: permanent protections are what the undocumented community wants. We stand in solidarity with immigrants who want to be recognized as permanent - not temporary - Americans.

You have a responsibility to deliver on your promises to our constituents and community members. In 2020, thousands of our community members—documented AND undocumented, worked to turn out voters in key battleground states and we now demand that our country and government deliver on the promises made to voters to embrace immigrants and their humanity through a pathway to citizenship. Provisions that included a registry update were removed from the House bill language on November 3rd, which would have granted up to 8 million undocumented immigrants a pathway to citizenship. Although the most recent draft of BBB includes temporary protections, these leave many in our communities vulnerable. It is not the much-needed permanent solution millions of immigrants have already waited over 35 years for. In a recent poll of 1,314 immigrants who are members of the Coalition for Humane Immigrant Rights (CHIRLA), an overwhelming 87% stated that they prefer a

path to citizenship to temporary parole in place.\textsuperscript{3} Congress must deliver green cards this year, our communities cannot wait any longer.

As written into the draft of the BBB bill, H.R. 5376, before being amended, and as explained by the House Judiciary Committee, updating the registry is the simplest manner to achieve a path to citizenship using existing law. An update of the Immigration and Nationality Act's Registry date—moving it from 1972 to 2010, would benefit approximately 62\% of the 11 million undocumented immigrants who have lived in the United States for ten years or longer including 1.6 million DREAMers, 360,000 TPS recipients, 3.6 million essential workers, and 1 million farm workers— as well as over 70\% of California’s undocumented immigrants.\textsuperscript{4} Simply put, this would allow anyone present before January 1, 2010 to apply for a green card under what is effectively the “statute of limitations” in immigration law.\textsuperscript{5} For the Latino community, this would be an astounding victory given that nearly 78\% of those living in the United States undocumented, come from Latin America.\textsuperscript{6}

We are aware of the Senate Parliamentarian’s multiple negative advisory opinions on proposed immigration provisions. The Parliamentarian’s advice against including green cards - or seemingly any relief at all - in reconciliation is just that-- advice. As 92 law professors recently explained in a public letter, “for the Senate to reach its own conclusion [...] should not be seen as an 'overruling' of anyone. Rather, it would recognize that elected members of Congress are ultimately responsible for deciding whether to enact legislation.”\textsuperscript{7}

\textsuperscript{6} Migration Policy Institute; https://www.migrationpolicy.org/data/unauthorized-immigrant-population/state/US
It is because of this repeated, unfortunate and misguided advice that we ask you, the Latino leaders in the Senate and House of Representatives, to mobilize and ensure Vice President Harris—who is in her constitutional right to include green cards in reconciliation under Senate rules, disregards the Parliamentarian’s advise and that immigration provisions remain in Build Back Better through an update to the registry. This is a crucial moment, where millions of immigrants living in the United States are relying on your leadership to engage Senate leadership, the Vice President, and less supportive colleagues to take a major step towards reforming our broken immigration system.

We—as the undersigned California based, Latino leaders representing impacted constituents—have worked tirelessly at state and local levels to support and drive equity for Black, Brown and AAPI immigrant communities who bear the brunt of economic, social, and health inequities. With Democratic control of the White House, Senate, and House of Representatives, we now have the unique opportunity to deliver on a policy that over 70% of Americans strongly support—an opportunity that Democrats cannot allow an unelected Parliamentarian to derail.

You, elected as members of our Congress, have the power and responsibility to strategize, mobilize, and advocate to clear the path for registry to be successfully reinserted in Build Back Better. A pathway to citizenship will transform the lives of millions of undocumented immigrants, their families, their communities, and the entire country.

Sincerely,

Elected Leaders

1. Senator Maria Elena Durazo (State Senate District 24, CA)
2. Assembly Majority Leader Eloise Gómez Reyes (Assembly District 47, CA)
3. Assemblymember Mia Bonta (Assembly District 18, CA)
